## PROFESSIONAL SUMMARY

---

Front-End Architect and Senior Software Engineer with 5 years of experience building high-performance, fast-loading, and conversion-driven user interfaces. Expert in the React ecosystem (Next.js, TypeScript) and in designing scalable Micro Frontend architectures. Proven track record of leading technical stack decisions and delivering enterprise-level applications for major brands (Positivo, Furukawa, Banco BMG). Highly focused on Core Web Vitals optimization, technical SEO, web accessibility (a11y), and security. Fluent in English (C2) with strong collaboration skills for international environments and remote cross-functional teams.

## EXPERIENCE

---

### META (CLIENT: BANCO BMG)

#### Software Engineer II

*Remote  
(Dec/2025 – Present)*

- Architected and implemented a Micro Frontend architecture using Webpack Module Federation, significantly reducing tight coupling across cross-functional development squads.
- Defined and established strict React and TypeScript component standards, driving successful adoption and standardization across the entire engineering team.
- Ensured robust application security and accessibility (a11y) compliance, meeting the rigorous standards required by the banking and financial ecosystem.
- Stack: React, Next.js, TypeScript, GSAP, Tailwind CSS, Styled Components, Webpack, Module Federation.

### NERDWEB

#### Senior Front-End Architect (Contract)

*Remote  
(Jul/2023 – Present)*

- Spearhead technical stack and software architecture decisions for large-scale enterprise clients (Furukawa Solutions, Positivo, Compagas, NextQuimica).
- Engineer front-end solutions with an absolute focus on Core Web Vitals and technical SEO, resulting in higher organic rankings and improved conversion rates.
- Consistently achieve and maintain Google Lighthouse performance scores of 94+ across all applications, ensuring a fluid and highly optimized user experience.
- Perform complex back-end integrations leveraging Headless WordPress and REST/GraphQL APIs.
- Stack: React, Next.js, TypeScript, GSAP, TailwindCSS, HTML, SCSS, JavaScript.

### 7 SEVEN TRENDS

#### Junior Full-Stack Developer

*Alfenas, MG  
Apr/2023 – Jul/2023*

- Developed and launched custom websites for Colégio Pontual Alfenas and Instituto da Cerveja Brasil.
- Built, maintained, and integrated RESTful APIs utilizing PHP.
- Implemented automated testing protocols and provisioned cloud infrastructure using AWS services.
- Configured CI/CD pipelines to streamline deployment workflows, integrating automated tests for continuous delivery.

### FREELANCE

#### Junior Front-End Developer

*Areado, MG  
Feb/2020 – Apr/2023*

- Engineered multiple high-converting landing pages tailored to client marketing campaigns.
- Developed fully customized, responsive WordPress themes from scratch.
- Automated repetitive development workflows with Gulp, reducing overall development time by up to 40%.
- Created advanced UI components and animations using SASS, Styled Components, Framer Motion, and Stitches.

## EDUCATION E CERTIFICATIONS

---

- **Bachelor of Science in Computer Science** — Estácio University (Jan 2020 – Dec 2024)
- **EF SET English Certificate (74/100)** — C2 Proficient
- **Certifications:** Introduction to Data Analysis (Microsoft Power BI), Git & GitHub, Python

## SKILLS

---

- **Architecture & Core:** React (Server Components, Hooks, Context API), Next.js, Micro Frontends, Webpack Module Federation, TypeScript, JavaScript.
- **Styling & UI:** Tailwind CSS, Styled Components, SASS, CSS-in-JS, HTML5, CSS3.
- **Animations:** GSAP, Framer Motion.
- **Performance & Quality:** Core Web Vitals, Technical SEO, Web Accessibility (a11y), Unit Testing (Jest, RTL), E2E Testing (Cypress).
- **Back-end & DevOps:** PHP (Laravel), APIs REST, GraphQL, WordPress Headless, Docker, AWS (S3, Lambda), Git, CI/CD.
